Summary - For the impatient

I am an experienced software developer with a focus on creating efficient and effective solutions. Through my career, I have honed my skills in optimizing strategies, responsive design, and website analytics. I have successfully tackled complex hardware, software, and network issues, consistently demonstrating my problem-solving abilities. With a degree in Information and Media Technology, I have completed impactful IoT projects and gained experience leading workshops, highlighting my leadership and communication skills. Fluent in both Swedish and English, I possess excellent communication abilities essential for collaborating effectively with diverse teams.

EXPERIENCE

Technician, Stena Recycling AB, Halmstad, Sweden, Oct 2022 - Present

- Manage and configure servers, drive enclosures, switches, desktops, and laptops
